

INSTALLERS

This page provides the available downloads for the Ocean Signal products.

(<http://oceansignal.com/products/mob1/>)

MOB1 (<http://oceansignal.com/products/mob1/>)

Use the **Download** button to install the program on your Windows computer, or alternatively, use the **Launch** button to run the application as a web page on your computers, tablets or phones.

NOTE: If you are having difficulty in programming your MOB1, please see the trouble shooting guide, which can be accessed from the opening page of the programme, by pressing the <F1> key. The most common reason for the MOB1 failing to programme is the screen brightness. Please ensure the screen is set to maximum brightness by using the keys on your laptop keyboard or your display monitor.

The version available is specific to the allowable DSC features in your country.

MOB1 Configuration Installer - Switzerland

  MOB1 Configuration Installer - Swiss version

Allows entry of MMSI number and enabling manual activation of a single Distress alert

AIS Alarm (<http://oceansignal.com/products/ais-alarm/>)

AIS Alarm Box configuration software

(<http://oceansignal.com/products/ais-alarm/>) AIS Alarm Box

AIS alarm configuration for Android devices

Navigate to this page on an Android device. Download the file. Install it from the downloads. Note you will need to allow permission to install from an unknown source when prompted.

 [Download \(http://oceansignal.com/wordpress/wp-content/uploads/ais_alarm.apk\)](http://oceansignal.com/wordpress/wp-content/uploads/ais_alarm.apk)

AIS Alarm configuration for Windows PC

Use this installer to run the AIS Alarm Configuration programme on a Windows PC. When installation is complete, find the Ocean Signal Programs or Apps folder and run the file "USB Driver Installer". Now plug the AIS Alarm Box into a free USB port.

 [Download \(http://oceansignal.com/wordpress/wp-content/uploads/Ais-Alarm-1.msi\)](http://oceansignal.com/wordpress/wp-content/uploads/Ais-Alarm-1.msi)

AIS Alarm configuration for MAC

Use this installer to run the AIS Alarm Configuration programme on an Apple MAC computer. Download the file to your computer, then open the downloads folder and run the file AIS-Alarm-Box.dmg. This will create a folder on the desktop. Drag the Ocean Signal icon to your desktop. The folder can now be sent to the Trash box.

 [Download \(http://oceansignal.com/wordpress/wp-content/uploads/AIS-Alarm-Box.dmg\)](http://oceansignal.com/wordpress/wp-content/uploads/AIS-Alarm-Box.dmg)
